

## **Horse Liniment Eases Arthritis Pain**

OCALA, FL -- An ingredient derived from hot peppers that decreases inflammation in racehorse's legs, is now recognized as safe and effective for human use. The ingredient has been formulated into a product called ARTH-Rx™ and comes in a strength designed for humans.

ARTH-Rx is a breakthrough in the treatment of painful disorders ranging from minor aches and pains to more serious conditions such as arthritis, bursitis, rheumatism and tendonitis.

Although the mechanism by which ARTH-Rx works to relieve pain is not totally clear, scientists suggest that pain is relieved because ARTH-Rx intercepts the messenger substance that sends pain signals to the brain.

ARTH-Rx is available in a convenient roll-on applicator without a prescription. Supplies are sometimes limited. To order call 1-800-634-2348. © 2007 HCD
